

Varsity Crew Minimum Standard

It is expected that varsity crew officials uphold the highest standards with regard to meeting attendance, participation in clinics, maintaining high test scores, and striving for high evaluation scores.

However, if a varsity crew member has an average evaluation score of less than 85% for two consecutive years, that official will be removed from their varsity crew and placed onto the alternates list. The crew chief will be asked to choose a new official to join that crew. If it is the crew chief who warrants removal, the football sports committee will assign a new varsity crew chief.
